

GARDENING CLASSIFIED

Gardening Classified is a new service for H.P.S. Shropshire Group Members run through our group website. Its aim is to help our members help each other through the exchange/loan of plants, cuttings, seeds, books, equipment and information. The only stipulation is that all the exchanges are free of charge to the user. (It is hoped that someone receiving a plant or other gardening item will make a voluntary contribution to the plant stall on his or her next visit to the monthly meetings.)

To advertise an item please send a description of it by e mail to sjsime@hotmail.com or by mail to Park Cottage, Penley, Wrexham, LL130LS. Please include your name and contact details, although these will not be put on the site.

To respond to an item on the site please send a reply, including your contact details and quoting the number of the relevant item, to the e-mail or postal address above. You will be sent the contact details of the advertiser and vice versa. This will permit you to contact each other and arrange the exchange. If this is successful then the original advertiser should send confirmation to the above address so that the item can be removed from the site.

Plants Wanted

Code	Description
PW002	Vernonia crinita either a division or seed please
